Worksheet A - Reading and writing

Name: _____ Class: _____ Date: _____

A3. The future classroom

Our science club is going to hold a future fair next month. Noor is going to make a model of the solar system. Leo is going to collect pictures of extreme weather. His display will include floods, droughts and blizzards. Maya wants to invent a classroom lamp that uses less energy. She thinks new technology will help schools in the future. These are ideas and predictions, not facts about the future. The group has a clear plan: they are going to use old boxes for every model.

1. When is the fair?

2. Who is making a solar system model?

3. What does Maya want to invent?

4. What materials are they going to use?

A4. True or false? Correct the false statements.

T / F Leo is collecting extreme weather pictures.

T / F Maya's prediction is a certain fact.

T / F They plan to buy new plastic boxes.

A5. Your own message

Write six sentences about a future school. Include two going to plans, two will/won't predictions, one example of present evidence and one future question tag.
