

UNIT 10

Planets

7TH
GRADE

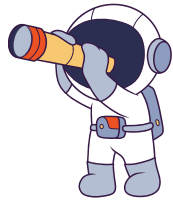

WORDS ABOUT THE UNIVERSE AND THE SPACE

asteroid: asteroit	launch: uzaya fırlatmak	satellite: uydu
atmosphere: atmosfer	layer: katman, tabaka	search: araştırmak / araştırma
black hole: kara delik	lunar eclipse: ay tutulması	solar eclipse: güneş tutulması
comet: kuyruklu yıldız	mass: yığın, kütle	solar system: güneş sistemi
crater: krater	meteor shower: meteor yağmuru	space: uzay
diameter: çap	meteoroid: meteoroit	space shuttle: uzay mekiği
do research: araştırma yapmak	Milky Way: Samanyolu	space station: uzay istasyonu
dwarf planet: cüce gezegen	moon: uydu, ay	spacecraft: uzay aracı
evidence: delil, kanıt	observe: gözlemlemek	spaceship: uzay gemisi
experiment: deney	orbit: yörünge / yörüngede dönmek	spin: dönmek
exploration: keşif	planet: gezegen	step: ayak basmak / adım
explore: keşfetmek, inceleme yapmak	reach: ulaşmak, varmak	surface: yüzey
galaxy: galaksi	rescue: kurtarmak	tail: kuyruk
gravity: yer çekimi	return / come back: geri dönmek	temperature: sıcaklık
journey: yolculuk, seyahat	ring: halka	turn around: etrafında dönmek
land: inmek	rotate: bir eksen etrafında dönmek	universe: evren, kainat
		zero gravity: sıfır yer çekimi

OTHER IMPORTANT WORDS

alien: uzaylı	path: rota, yol
direction: yön	provide: sağlamak
distance: mesafe	size: büyüklük, boyut
form: oluşturmak	telescope: teleskop
gas: gaz	
heat: ısı	
hit: çarpmak	
mystery: gizem, sır	
object: nesne	

ADJECTIVES

average: ortalama	huge: çok büyük
bright: parlak	icy: buzlu, buz kaplı
circular: dairesel	large: geniş, büyük
close: yakın	rocky: kayalık
dark: karanlık	round: yuvarlak
deep: derin	thick: kalın
deserted: terk edilmiş	thin: ince
dry: kuru	unique: tek, eşsiz
dusty: tozlu	various: çeşitli
far: uzak	wide: geniş
fast: hızlı	

SOLAR SYSTEM

Choose the English meaning of Turkish word

1	atmosfer	atmosphere	asteroid	galaxy
2	kuyruklu yıldız	crater	comet	orbit
3	kara delik	moon	black hole	ring
4	araştırma yapmak	do research	rescue	rotate
5	galaksi	galaxy	spacecraft	telescope
6	yer çekimi	gravity	layer	spin
7	yolculuk	satellite	journey	direction
8	uydu	evidence	satellite	heat
9	uzaya fırlatmak	launch	return	land
10	meteor yağmuru	meteor shower	solar system	universe
11	gözlemlemek	observe	provide	search
12	yörüngede dönmek	orbit	rotate	turn around
13	gezegen	planet	alien	object
14	ulaşmak	reach	rescue	step
15	uzay aracı	spacecraft	spaceship	telescope
16	uzay gemisi	spaceship	space shuttle	space station
17	yüzey	surface	tail	path
18	evren	universe	Milky Way	galaxy
19	sıfır yer çekimi	zero gravity	gravity	lunar eclipse
20	uzaylı	alien	asteroid	satellite
21	teleskop	telescope	layer	ring
22	parlak	bright	deep	dusty
23	buzlu	huge	icy	rocky
24	benzersiz	circular	unique	average
25	çeşitli	various	thick	close

2 Fill in the blanks with the words

orbit – galaxy
astronaut – telescope
reach – surface
launch – moon

1. Scientists use a _____ to observe distant planets.
2. The Earth and other planets _____ the Sun.
3. The Milky Way is our _____.
4. Neil Armstrong was the first astronaut to walk on the _____.
5. NASA plans to _____ a new spacecraft next year.
6. The spacecraft must _____ Mars safely.
7. An _____ travels into space.
8. The rocky _____ of Mars is red.

3 Odd one out

- planet – moon – satellite – temperature
- asteroid – comet – meteoroid – average
- orbit – rotate – turn around – huge
- spacecraft – spaceship – telescope – space shuttle
- bright – huge – circular – galaxy

4 Match the description with the planets

- | | | |
|--------------------------|-----------|---------|
| 1. 🌌 has beautiful rings | a. Earth | 1. ____ |
| 2. 🔴 red planet | b. Mars | 2. ____ |
| 3. 🌍 our home | c. Venus | 3. ____ |
| 4. 🔥 hottest planet | d. Saturn | 4. ____ |
| 5. ❄️ coldest planet | e. Uranus | 5. ____ |

5 Match parts to make phrases

- | | |
|-----------|----------------|
| 1. solar | a. gravity |
| 2. black | b. shuttle |
| 3. zero | c. eclipse |
| 4. space | d. hole |
| 5. meteor | e. station |
| 6. lunar | f. shower |
| 7. Milky | g. system |
| 8. dwarf | h. planet |
| 9. solar | i. Way |
| 10. space | j. exploration |

1. ____
2. ____
3. ____
4. ____
5. ____
6. ____
7. ____
8. ____
9. ____
10. ____

6 Write correct planets

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune

1. I have thick clouds of acid. _____
2. I am the smallest planet. _____
3. I am the seventh planet from the Sun. _____
4. I am famous for my rings. _____
5. I am the fourth planet from the Sun. _____
6. I am the farthest planet from the Sun. _____
7. I am the hottest planet. _____

7 Match the words with their meanings

- | | |
|--------------|--|
| 1. asteroid | a. a natural object that moves around a planet |
| 2. satellite | b. a large system of stars |
| 3. galaxy | c. a rock that travels in space |
| 4. gravity | d. the force that pulls objects down |
| 5. telescope | e. a tool used to observe space |

1. ____ 2. ____ 3. ____ 4. ____ 5. ____

8 Circle the correct one

1. A comet has a long **tail** / layer / ring.
2. The Moon is a natural **satellite** / galaxy / asteroid.
3. A **solar** / lunar / meteor eclipse happens when the Moon blocks the Sun.
4. The International Space Station is a **space** / rescue / desert station.
5. A black hole is a mysterious object in the **universe** / path / step

Choose the correct option

1. Scientists use a _____ to study stars and planets.
A) telescope
B) asteroid
C) ring
D) path
2. Mars is known as the Red Planet because of its red _____.
A) orbit
B) atmosphere
C) surface
D) galaxy
3. The Moon is Earth's natural _____.
A) satellite
B) asteroid
C) galaxy
D) telescope
4. Mercury is the _____ planet to the Sun.
A) farthest
B) closest
C) brightest
D) largest
5. Saturn is famous for its beautiful _____.
A) gases
B) volcanoes
C) rings
D) oceans
6. The Moon _____ around the Earth.
A) melts
B) shines
C) orbits
D) explores
7. Astronauts wear special suits because there is no _____ in space.
A) water
B) oxygen
C) sunlight
D) gravity
8. A group of stars forms a _____.
A) satellite
B) galaxy
C) shuttle
D) atmosphere
9. An astronaut uses a _____ to travel into space.
A) submarine
B) helicopter
C) bicycle
D) spacecraft
10. Earth has one natural _____.
A) ring
B) satellite
C) comet
D) asteroid
11. Scientists use telescopes to _____ the universe.
A) destroy
B) explore
C) paint
D) collect
12. Comets are mostly made of ice, dust and _____.
A) gas
B) metal
C) wood
D) paper
